FARMERS WILL RECEIVE CASH FOR LISTING

Applications Are Being Received By Commissioners Who Are Assisting in Project

15 CENTS PER ACRE

May Close List Any Day Is Statement Coming From District Office—For Dust Control

Applications are being taken this week by the Commissioners Court from land owners of Randall county for money to list the land of the county which has blown or may blow unless cultivated.

The Resettlement Bureau with headquarters in Amarillo made the offer to the farmers of 15 cents per acre for listing purposes.

In the application the farmers state, "I am not able to finance the work necessary to the proper treatment of said land."

Letters were mailed to land owners by the court, and many applications were taken up yesterday. The bureau has placed the duty of securing the applications upon the commissioners courts of about a dozen counties in this section where the bureau believes work is needed at once in order to keep down the dust this spring.

Just how long applications will continue to be taken was not known yesterday. The commissioners of Randall county were advised that all applications must be completed this week, and that the work might be shut down sooner if it was determined that the money available might not hold out until all farmers have been reached.

The government gave the farmers 10 cents per acre last year for this work.

Congressman Marvin Jones has a bill in Congress asking for two million dollars for this work in the Panhandle, New Mexico, Oklahoma, Kansas, and Colorado, but this bill has not yet passed and the present work is in the nature of an emergency.

Propaganda Would Make Communism of The New Deal

J. L. Duflot spoke Tuesday at the luncheon of the Rotary Club upon the use of propaganda, illustrating his subject with the present attempt to connect Communism with the New Deal.

Propaganda capitalizes prejudice; is based upon emotionalism; is vigorous and dramatic; depends upon suggestion.

Today the Hearst newspapers, Saturday Evening Post and Liberty are using propaganda attempting to show that the Democratic party has gone Communist. Hoover and Smith have used this expression: "Keep the capitol at Washington, not move it to Moscow," as a method of propaganda.

Mr. Duflot discussed the reasons for existence of government, and the methods employed by government. Quoting from several Russian leaders he showed that communism stood for bloody revolution, force and violence. This has taken place in Russia against the property owners.

According to Mr. Duflot, the New Deal has ruled not by blood, but by the ballot. All of the New Deal movements have been attempted within the law for the benefit of the people. He quoted from the statements of President Roosevelt and from Dr. Tugwell, both of whom cautioned against revolutionary methods, and violence.

To combat the Republican plea to stay within the constitution, Mr. Duflot quoted from President Lincoln's inaugural address in which he advocated changing the constitution to meet the occasion.

The reforms as advocated by President Roosevelt have no hint of Communism, but propaganda of his enemies are seeking to inject suspicion of the nation.

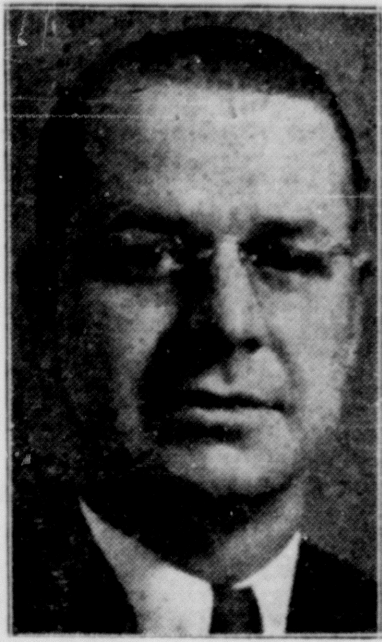

Visitors present were H. W. Galbraith of Amarillo, and J. W. Shook of Canyon.

G. H. Little Is Candidate For State Legislature

G. H. (JACK) LITTLE

G. H. (Jack) Little of Amarillo has announced his candidacy for the office of state representative for the 123rd representative district, embracing the counties of Armstrong, Carson, Deaf Smith, Oldham, Potter and Randall.

Mr. Little is a native Texan, having been born in Hunt County, and after finishing school moved to the Panhandle, where he has since resided. Mr. Little is well known throughout the district, and is now engaged in the practice of law, maintaining an office in the Amarillo Building. He has been prominently identified in civic movements, and has been active in the affairs of the Democratic party.

In making his announcement, Mr. Little stated:

"It shall be my purpose to attempt to see and personally discuss with as many people as possible in this district matters of public interest and importance to the people of the state as a whole, and particularly matters affecting the welfare and interest of this district. I will welcome the opportunity to discuss matters that will likely come before the legislature with any and all interested citizens, and I assure the people of this district that, if elected, I shall constantly devote my time and dedicate my best efforts to the welfare of this district and the state as a whole."

Hardin-Simmons Will Meet Buffs In Two Games

Closest Games of Season Are Expected When the Teams Meet—Cowboys Are Two Ahead

Hardin-Simmons University will play at the Burton Gymnasium next Monday and Tuesday nights, meeting the Buffaloes in two games that promise to be the most thrilling of the season.

The Buffs left victim of the Cowboys at Abilene on the home floor of the Baptist aggregation. Now that the Buffs have their own floor as a field of battle, the West Texans will attempt to even up the games for the season.

Coach Al Baggett reports his team in the best of condition and out to win both games. He is expecting the largest crowds of the season for these games owing to the interest which is always shown when Simmons meet the Buffs in any kind of contest.

Coach Frank Kimbrough of Simmons is well known here, having coached at Wayland and Amarillo Junior College, succeeding Baggett at the latter college when Baggett came to W. T. three years ago.

The Buffs have entered the National A. A. U. tournament at Denver which will be played Mar. 15-21. From the outstanding stars of this tournament will be selected a group to make the final trial for the Olympic games being held in Germany. The final selection will be made at New York City in April.

Louis J. Bryan Resigns As Head Palo Duro Work

William Anderson Becomes Acting Superintendent—15 Projects Are Underway

Louis J. Bryan left Friday, having resigned as superintendent of the Palo Duro State Park. He has accepted a position with PWA, and will report at Denton as superintendent on a large building program which is under way at C. I. A.

William Anderson was named acting superintendent of the Palo Duro work by the Texas State Parks Board.

Mr. Bryan came to the Palo Duro last May. He has been instrumental in getting much construction under way, which will carry the work practically through this year. He recommended Mr. Anderson as his successor, since the two have worked together on all of the projects.

While listed as landscape architect, Mr. Anderson has had varied building experience, and will carry on the work as has been approved by the National Park Service. He has been at the Palo Duro since August, 1934. Construction is now under way on the entrance, the test cabin and crossing No. 1. Approval has been received on 15 projects for the Palo Duro, and these will be rushed through as rapidly as possible. The cold weather has greatly interfered with work this winter.

Architect G. T. Patrick has been ordered to report to the regional office at Oklahoma City the latter part of this month.

Ninety Applications for Old Age Pensions Filed in the County

Ninety men and women in Randall county of 65 years of age or more have filed application for the old age pension under the terms of the new law which became effective Friday.

The applications are first filed with J. S. Fischer, district supervisor in Amarillo. After a personal investigation has been made of each application, the papers will be sent to Austin where they will be inspected by the state commission.

Under the terms of the law no pensions will be paid before the first of July.

Drivers' License May Be Secured at Collector's Office

Blanks for Issuing Drivers' Licenses were received Saturday, and about 50 people made application during the first two days.

The application blanks are easily made out, but must be sworn to before a notary public.

Drivers of vehicles are required by the law to carry these license at all times they are operating a car on the highways of the state. Penalty will be imposed upon those who are without their license if stopped by highway patrolmen.

Children under 14 years of age cannot secure a license or operate a car. Those between the ages of 14 and 18 must have the approval of their parents or guardians before the license will be issued.

AAA Will Be Paid To Farmers Up To Date Court Action

Farmers will receive checks from the government to close contracts made before Jan. 6th when the supreme court rendered its decision declaring AAA void. Congress has passed a direct appropriation to fulfill the outstanding contracts, and to pay off the expenses of the local committees which had not been met.

It is reported from Washington that the Department of Agriculture will begin to mail checks this week and will clear up this work as rapidly as possible. It will require several weeks to make all of the payments.

Mary Ann Peters Is Fatally Injured When Hit by Taxi

Miss Mary Ann Peters, who was hit by a taxi early Sunday morning on the streets of Amarillo, died last night in an Amarillo hospital. She never regained consciousness.

She was the daughter of Mr. and Mrs. J. E. Peters of this city. Other relatives of the deceased are Mrs. Grace Dietrich, Wichita, Kan.; Mrs. H. S. Lichtenberger, Amarillo, and three brothers, J. R. Peters, Estancia, N. M.; J. E. Peters, Las Vegas, and C. A. Peters of San Antonio.

Funeral arrangements have not been completed.

R. A. Bellah has been in an Amarillo hospital this week recovering from his car accident last week. An X-Ray showed a broken rib. He was also badly bruised as a result of the accident.

Snow Wednesday Brings Quarter Inch of Moisture

Cold Wave Hovers Over Panhandle During the Week—No Wind With the Snow

Snow blanketed the Panhandle and most of Northwest Texas yesterday. The snow came with little wind, and although not so wet as other snows this winter, brought a quarter inch of moisture. With warm weather today, the snow will melt considerably, and the ground will receive the full benefit of the moisture.

The week has been uniformly the coldest of the season, with the mercury hovering unpleasantly near the zero mark.

Friday was the coldest, registering 6 degrees above; Monday was 9 above; Tuesday 7½ above; yesterday 14 above.

The worst dust storm of the winter hit this section Thursday with a strong north wind.

WPA Sanitation Project Making Rapid Progress

The Community Sanitation program which was started here in December is operated under the WPA and is sponsored by the Texas State Department of Health. \$13,000 was the allotted expenditure called for in the original plans of this project. An average of twenty men are now working under the supervision of W. H. Newsom with an approximate payroll of \$1200 per month.

Over forty-five pit-type toilets and a number of septic tanks have been installed since January 1st, with a large number of orders on file awaiting completion. All property owners who live in rural and suburban districts away from regular sewer lines are eligible to make application for these improvements in sanitation.

This nation-wide sanitation program is meeting with hearty welcome throughout the country. The property owners pay for the material only and WPA furnishes all labor necessary to complete the job. Those interested in this project are urged to call at the sanitation office on the first floor at the Court House where Mr. Newsom, the project superintendent, will be glad to fully explain the program.

J. D. Hazlewood Announces For County Attorney

J. D. HAZLEWOOD

J. D. Hazlewood, local attorney, who has resided in Randall county for a number of years, has authorized the News to announce his candidacy for County Attorney, subject to the action of the Democratic Primaries on July 25.

In making his announcement, Mr. Hazlewood made the following statement: "I have been a resident of Randall county for the past sixteen years, having first lived on a farm northwest of Canyon, and later moving to Canyon. I attended the public schools, and am a graduate of the Canyon High School and the West Texas State Teachers College. My legal training was obtained at the University of Texas School of Law, where I spent three years in the study of law and received my license to practice. At the present time, I am engaged in the practice of law, with offices here in Canyon.

If elected to the office of County Attorney, I shall devote my entire time to the duties of this office in a fair and impartial manner. I expect to see every voter personally, and trust that I shall be afforded the opportunity; and I shall greatly appreciate your vote and influence."

Local Citizens To Assist With District Meet

Education Conference To Be Held Here March 6-7 Will Bring Many Educators

Canyon citizens will have a big part in the success of the Northwest Texas Conference for Education which will hold its third annual meeting here March 6 and 7. Supt. I. B. Carruth is chairman of the Legislative committee. This is considered one of the most important committees of the Conference.

Rev. J. O. Quattlebaum and Rev. J. R. Hicks will give the invocations at the opening of two of the general sessions. Deputy State Superintendent J. D. Wilson is a member of the executive committee of the Conference. He has called a meeting of all trustees of the 26 counties for Friday, March 6.

Miss Elva Fronabarger, principal of the Canyon elementary school, is chairman of the elementary school section.

Others who are members of important committees are Mrs. Mary Sligar, Dr. Harris M. Cook, Dr. A. M. Meyer, T. M. Moore, W. E. Lockhart, Frank R. Phillips, and Miss Ruth Cross.

Wallace R. Clark will direct the orchestra which will give the first part of one of the programs, and C. E. Strain will direct the college band in a 15 minute concert at the first general session on March 6.

This conference which is expected to bring at least 1500 people to Canyon for March 6, was organized in 1934 under the leadership of Dr. J. A. Hill. It has grown until it is the largest regional educational meeting in the state of Texas. It includes business men, professional men, club women, school trustees, parent teacher association officials and workers, and all citizens who are friends of education in its membership. The officers of the conference keep in mind that this is the people's conference rather than a teachers meeting.

Grady Pipkin of Eastland, Jesse Pipkin of Breckenridge and Bob Pipkin of Stephenville spent Wednesday night here at the home of their parents, Mr. and Mrs. J. C. Pipkin.

CITIZENS WILL VOTE FEB. 29 SOIL CONTROL

Law Is Fully Explained Covering Operations of Proposed District In Randall County

TAXPAYERS TO VOTE

Commissioners Court Is Made Governing Body—Farmers Will Meet to Discuss Election

Citizens of Randall county will be called upon to pass upon the question of forming a wind soil erosion district of Randall county in a special election to be held Saturday, February 29th.

Every property tax payer in the county will be allowed to vote in this election.

In order that every citizen may know all of the provisions of the law, The News prints the law in full in this issue. Farmers of the county are organizing to bring out a large vote next week, and very likely will hold a number of meetings during the week in order to induce tax payers to vote in this election.

Very little opposition has been heard to the formation of the district, although there is a difference of opinion as to how the law should be changed as to the governing body of such a district.

The entire law follows:

Be It Resolved by the Legislature of the State of Texas:

Section 1. The creation and incorporation of Wind Erosion Conservation Districts coextensive with the boundaries of any county in this State is hereby authorized under and by virtue of Section 59, Article XVI, of the Constitution. The area of any county may be formed into such a Conservation District when the qualified tax paying voters of such county, voting at an election to be held for such purpose, by majority vote sanction and authorize the creation and incorporation of such District. The creation of such District is deemed essential to the accomplishment of the purposes of the above mentioned Section of the Constitution and when any such District is created as herein provided the same shall be a governmental agency and body politic and corporate with the powers of government and with authority to exercise the rights, privileges and functions as are conferred by this Article. Such a District shall bear the name of the county creating same and shall be so designated.

Sec. 2. When petitioned by not less than fifty (50) duly qualified property tax paying voters, the Commissioners Court of any county in this State shall call an election to be held throughout such county to determine whether a majority of the legally qualified tax paying voters of such county favor the creation and incorporation of the area of such county into a Wind Erosion Conservation District. The procedure for holding and declaring the result of such an election shall be in substantial compliance with the requirements for elections to vote bonds for public improvements. All persons who are legally qualified property tax paying voters shall be entitled to vote on such election. Each voter favoring the creation and incorporation of such District shall have written or printed on his ballot "For the Creation and incorporation of the _____ County Wind Erosion Conservation District."

Frank Peterson To Talk Friday On Tax Survey

Frank S. Peterson of Amarillo, district supervisor of the State Tax Survey program, will be in Canyon, Friday, Feb. 21. He will meet with the Commissioners Court at 2:30 and discuss with them the purposes of the state wide tax survey that is being made. Everyone interested in this project is invited to attend this meeting.

MISS HUDSPETH WILL START REMODELING HOME

Work will be started this week on remodeling the home of Miss Mary E. Hudspeth. Neil Singleton of Amarillo has the contract at \$8,000. S. S. Coffey will be foreman of construction. Harold Walsh is architect on the job, which calls for a complete remodeling of the residence.

SUBSCRIPTION \$1.50 PER YEAR

Entered at the postoffice at Canyon, Texas, as second class matter. Published weekly at office, 1513 Fourth Avenue, Canyon, Texas.

The new farm bill comes under the name of soil conservation. Many of the AAA features are carried into the new bill which will likely be completed this week. Subsidy for the farmer on the same basis as protective tariff for the manufacturer is proposed. The soil conservation phase will be strengthened and improved, as it should be. This nation has wasted much of the natural resources, and since the first plow was started in this nation very little has been done to conserve the soil. While the nation is producing more than the people are able to consume, yet this is no excuse for wilfully allowing the soil to be destroyed. Practically all of the natural resources of this nation were dissipated, waste upon every hand. Little was done about it until too late. The soil is one resource which the people must have in order to continue to live. Perhaps there will come something more substantial to the nation because of the defeat of AAA through the Supreme Court decision.

It has been rather amusing, were it not so pathetic, to hear the Republican leaders as they praised the great Lincoln but at the same time attempt to bring to the public's attention their own abilities as being on a par with Lincoln. As a matter of record if comparisons are to be made, what living American today would compare more favorably with Lincoln than Franklin D. Roosevelt? Both served in the most critical times this nation has known; both had unusual insight of the problems at hand; both undertook fearlessly the problems which seemed so unworkable; both were harassed by political leaders who attempted to run the government; both were loved by the common men whom they served, and hated by those who were selfish in their attitudes toward prevailing conditions; both placed the love of country above political party, although both were called partymen.

President Roosevelt has invited rulers of nations on the American continents for the purpose of formulating a policy of permanent peace. As a starter, Congress is passing the largest appropriation for defense that has ever been passed during peace times. The United States is putting the world on notice that we shall be prepared for any emergency, and the conference of American nations should do much to further a friendly bond between the western nations.

Don't cuss about the drivers license bill simply because it puts you to a lot of inconvenience. The bill will not automatically solve the problem, and materially reduce the death rate on account of careless driving. But it is a step in the right direction, and in the years to come will be greatly improved.

WPA has been criticised in many

sections of the nation as producing nothing worth while. Perhaps the criticism is justified in many instances where the local people did not have projects worthy of consideration, and in case they took no interest in seeing that the government's money was well spent. It is different so far as Canyon and Randall county are concerned. In the first place, CWA built the highway from Canyon to the Palo Duro State Park, a most worthy undertaking. In the second place, WPA is functioning in a big way on the campus of W. T. The work here is a show place for the state, and has been highly approved by every WPA official who visits here. Other worthwhile projects are awaiting the completion of the present jobs. Federal money has been well invested in this county because local officials have taken an interest in the projects, and given all co-operation when called upon for assistance.

Speaking of brain trusts: Alf Landon has a flock of trainers trying to develop a radio voice; Uncle Herbert Hoover went thru the same process months ago, and now has a staff of statisticians and writers preparing his speeches. It would seem that those who depreciate the efforts of the brain trusters in the Roosevelt administration face a small army of them among the administration's opponents. However, they will be kept more in the back ground as a result of the ridicule to which the Roosevelt advisers have been subjected.

The Huey Long political machine continues to function in a most surprising manner. Most people are surprised at the endurance of this organization, and the loyalty of the Long followers. The factional strife which started immediately following Huey's death seems to have subsided. Even without a strong leadership, the machine may continue to operate efficiently until next election. Long was as devotedly loved by his followers as he was cordially hated by his enemies.

Famous monologues: 1933, Al Smith and other Liberty Leaguers, "Please, Mr. Roosevelt, do something quickly, before the nation is wrecked by the mess that Hoover has gotten us into. Anything, please, hurry." 1936, the same outfit: "Mr. Roosevelt is responsible for all of the evils that exist today. His radical program has showered misery upon us poor Liberty Leaguers from which we shall not recover until a good Republican is elected. We are the modern Moses, just follow us and we will take you out."

The dust storms of the past week should cause every voter to be interested in the wind erosion election to be held next week. True enough, forming a district of Randall county will not stop the dust storms, but the movement is spreading over the Southwest, and erosion must be stopped or all the top soil will be gone in a few years. Every property tax payer in Randall county should go to the polls February 29th and vote on this important question.

California is attempting to stop the wave of unemployed entering the state. Police patrol the border, and turn back those without means of support. Whether or not the state can legally do this still remains a question. For the past year California has warned people not to come unless they had means of support, but still the folks came. It would not do to suggest that California over-advertised its magnificent climate.

Where do the radio jokes come from? Very simple, according to a magazine article this month.

Nation Turns Again to Washington's Leadership on Constitutional Issues

THE vision that was George Washington's lights the course of American government with a new brilliance on the 204th anniversary of his birth.

At a time in our history when grave constitutional issues once more arise to demand decisions, the political acumen and forethought of the country's first president stand out as cheering beacons.

"The Constitution that is submitted," wrote Washington to a friend in 1787, "is not free from imperfections; but there are as few radical defects in it as could well be expected, considering the heterogeneous mass of which the convention was composed on the diversity of interests which were to be reconciled."

"A constitutional door being opened, for future alterations and amendments, I think it would be wise in the people to adopt what is offered them."

THUS Washington pointed out—two years before adoption of the great document—the utter impossibility of framing a law fundamentally broad enough never to be changed. The door is open for what the future may require, he said in effect.

And today, as many times before in our history, we are considering constitutional changes to meet the tempo of the times.

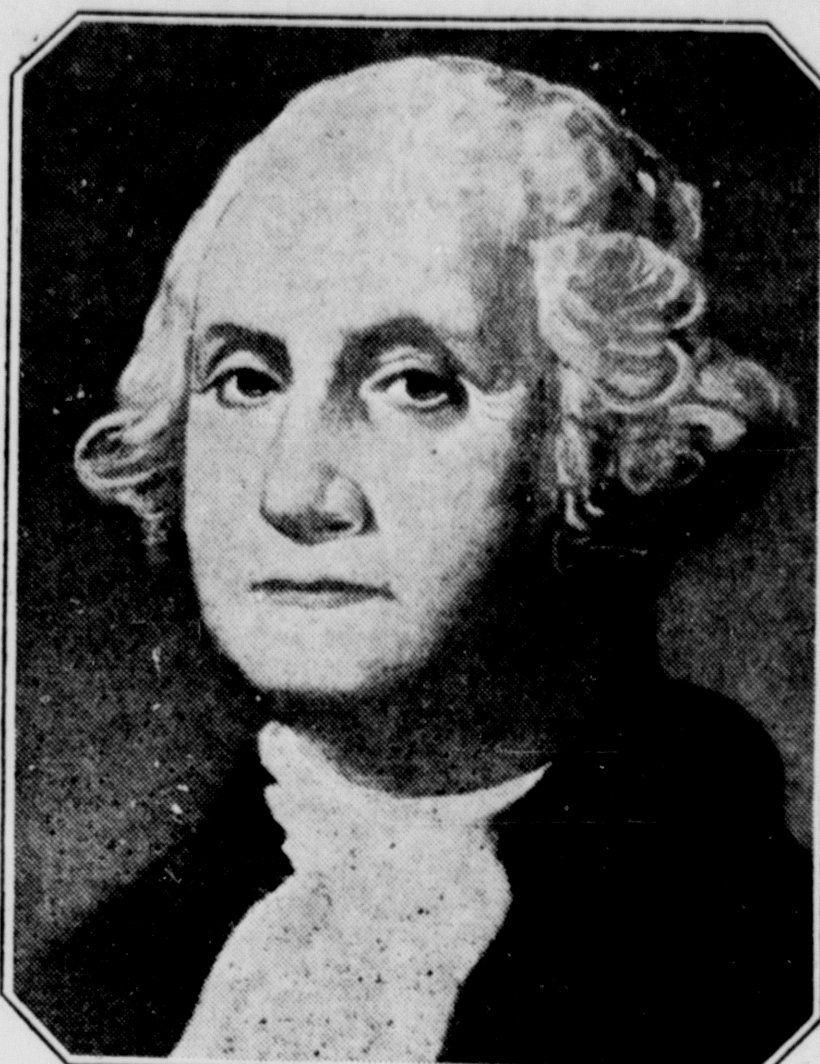

Speaking to the nation Sept. 17, 1796, as he prepared for retirement, Washington said emphatically:

"The basis of our political systems is the right of the people to make and alter their constitutions of government."

Then he added the equally vital thought:

"But the Constitution which at any time exists, till changed by an explicit and authentic act of the whole people, is sacredly obligatory upon all. The very idea of the power and the right of the people to establish government presupposes the duty of every individual to obey the established government."

REPEATEDLY political philosophy of Washington emanate

(Copyright, 1933, Edwards and Deutsch Lithographing Co., Chicago.)

While politicians battle over our governing document, George Washington's views on the Constitution remain fresh and significant on the 204th birthday anniversary of the Father of His Country.

principles that apply to the American scene of 1936.

He warned against "irregular opposition" to the acknowledged authority of the Constitution; he stressed the danger of parties dominating the will of the people; he cited the peril of one department of government "usurping" the powers and duties of another; he urged that public credit be cherished "as a very important source of strength and security"; and he espoused the policy of the good neighbor among nations, but with cautious reservations looking toward the avoid-

ance of "foreign entanglements."

The Washington neutrality policy seems especially significant today in the light of revelations at the Senate munitions inquiry. The general said:

"The great rule of conduct for us in regard to foreign nations is, in extending our commercial relations, to have with them as little political connection as possible."

In the light of these enunciations, then, does the country, on the great leader's birthday, find new direction and inspiration in the vision that was Washington's?

Beware The Cough

From a common cold

That Hangs On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Creomulsion not only contains the soothing elements common to many remedies; such as, Syrup of White Pine Compound with Tar, fluid extract of Licorice Root, fluid extract of Wild Cherry and Menthol, but also has fluid extract of Ipecac for its powerful phlegm loosening effect, fluid extract of Cascara for its mild laxative effect, and, most important of all, Beechwood Creosote is perfectly blended with all of these to reach the source of the trouble from the inside. Creomulsion can be taken frequently and continuously by adults and children with remarkable results.

Thousands of doctors use Creomulsion in their own families as well as in their practice knowing how Creomulsion aids nature to soothe the inflamed membranes and

heal the irritated tissues as the germ-laden phlegm is loosened and expelled. Druggists also know the effectiveness of Beechwood Creosote and they rank Creomulsion top for coughs because you get a real dose of Creosote in Creomulsion, emulsified so that it is palatable, digestible and potent for going to the very seat of the trouble.

Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial irritations and especially those stubborn ones that start with a common cold and hang on for dreadful days and nights thereafter. Even if other remedies have failed, your druggist is authorized to guarantee Creomulsion and to refund every cent of your money if you are not satisfied with results from the very first bottle. Don't worry through another sleepless night—phone or go get a bottle of Creomulsion right now. (Adv.)

DINNER BRIDGE FOR CLUB FRIDAY EVENING

The Priscilla Club entertained its members and their husbands at the home of Mr. and Mrs. Frank Hicks Friday evening with the annual Valentine dinner bridge.

Six tables were arranged and decorated with red tapers in bronze holders carrying red hearts. Valentine place cards were artistically arranged on the tables. A two course dinner of swiss steak with tomato sauce, escalloped potatoes, hot buttered beets, tomato aspic salad on shredded lettuce with red heart garnish and cherry pie with whipped cream, and coffee was served.

After the tables were cleared for bridge, partners were chosen by drawing hearts which were hanging from the chandelier.

The guests were Mr. and Mrs. R. E. Ball, Mr. and Mrs. J. Madison Daugherty, Mr. and Mrs. J. L. Duflo, Mr. and Mrs. G. A. Parlow, Mr. and Mrs. A. K. Goodman, Mr. and Mrs. Frank Hicks, Mr. and Mrs. Mitchell Jones, Mr. and Mrs. Felix Neff, Mr. and Mrs. J. J. Walker, Mr. and Mrs. Harry Wood, Mr. and Mrs. H. W. Hartman, Mrs. C. M. Presley, Mrs. D. M. Stewart, and Mrs. Warner Reid.

MARGARET PIERLE IS HONORED WITH PARTY

Honoring Miss Margaret Pierle's birthday, Dr. and Mrs. C. A. Pierle entertained with a dinner-bridge party at their home Saturday evening.

With the room decorated befitting the Valentine season, dinner was served by candle light. Bridge and ninety-nine were played during the evening.

Out-of-town guests were Miss Margaret Pierle, honoree, of Shamrock, Miss Virginia Heaton of Whittsburg, Miss Audie Johnson of Samnorwood, Miss Eleanor Pierle of Hereford, Mr. W. A. Kelsey of Shamrock, Mr. William Robinson of Fritch, and Mr. Bill Fields of Amarillo.

STUDENT RELIGIOUS COUNCIL MEETS WITH MISS SANDERS

A review of Overstreet's "A Civilized Way to Leisure" given by Miss Kathleen Hodge was the topic of interest at a meeting of the Student Religious Council which met yesterday with Miss Ocie Sanders.

The group carried out an extemporaneous dramatization of a situation which they invented and carried it out with characters which they described themselves. The dialogue and interpretation of characters was done with no outside reference and only a few minutes of preparation.

Following a short business meeting concerning programs and the Easter Service in the spring, refreshments were served to those attending.

BRIDGE DANCE GIVEN SATURDAY EVENING

Miss Frances Lester and Miss Alice Makie of Dumas were hostesses at a bridge-dance here Saturday evening at the home of Mrs. Irene Wilson and Mrs. Jamie Talley.

The entertaining rooms were decorated in the red and white colors in keeping with the St. Valentine motif.

Dancing was the main diversion of the evening followed by bridge at which Mrs. M. E. Cantrell received the traveling prize.

At a late hour refreshments of heart shaped cheese canapés with fruit salad, date pudding, heart mints and coffee were served. Those enjoying the occasion were Mr. and Mrs. Robert W. Foster, Mr. and Mrs. M. E. Cantrell, Miss Nelly Freeman of Dumas, Cecil Baer of Dumas, Delbert Lowes, Roy Cheatham, Larry Holman, George Brewer, Mrs. Talley, Mrs. Wilson, and the hostesses, Miss Lester and Miss Makie.

Stafford Hall Opening Draws Over 500 Guests

Townpeople, collegians and out of town visitors numbering five hundred visited Stafford Hall during its informal opening last Friday.

From three until ten the new dormitory for boys was crowded with visitors, who inspected the kitchen, living room, dining room and director's suite down stairs and the boys' living quarters above.

Forty young men will live in Stafford Hall, developing their personal interests and gaining experience in communal activities.

Friends who called found the maple furniture, adapted from Early American styles, especially suitable for use in a home for men. The study alcoves which are a part of each room are equipped with modern pieces designed for this special use. There is ample drawer and table space for storage of each student's supplies. The bedrooms are furnished with single beds and a closet is provided for each occupant.

The opening was made a beautiful and happy occasion by the interest which people of the town showed by sending flowers, which were used to decorate the entire floor.

The reception Friday was planned by the men, and Dr. and Mrs. A. M. Meyer, directors of the hall, were assisted in receiving by William H. Blaine, III, Raton, N. M.; Deane Fletcher, Childress; R. M. Thompson, Dalhart; Foster Harmon, Tulsa; Edward Burkhalter, Shamrock; Donald Butler, McLean; and Joe Blaine, Raton, N. M.

Many visitors asked how the hall was to be managed, and the young men explained that they have a house organization, of which R. M. Thompson, of Dalhart is president, and that every boy who lives in the hall will have a place on some committee.

At the time of the opening there were, besides the reception and social committees, eight others. The house committee was composed of Lowell Windson, Borger; Milo Carlson, Pampa; James Massey, McLean; grounds, Thomas Newell, Clovis; C. D. Durrett, Lakeview; L. S. MacBee, Pampa; order, James Badgett, Floydada; Malcolm Wyatt, Amarillo; R. C. Jeffers, Matador; R. M. Thompson, Dalhart; etiquette, E. G. Shuhart, Jack Veazey, Dalhart; scholarship, Floyd Ewing, Lockney; Marcus Graham, Quitaque; parliamentarian, Woolworth Russell, Amarillo; Martin Baze, Brownfield; sports, Otis Harmon, Tulsa; George Wright, Longview; George Palmer, Dalhart; publicity, Brady McCoy, McLean; Harold Miller, Dalhart.

Stafford Hall is the first dormi-

tory for men to make its appearance on a Teachers College campus in Texas, and it is the purpose of the men who are living there to make it a model for others that follow.

The hall was named for Professor B. A. Stafford, member of the first faculty of the college and for many years head of the Latin department.

FORMER RESIDENT TAKES OWN LIFE AT HOUSTON

Word was received this morning that R. D. Gamble, former resident of Canyon in 1898 and manager of the M. T. Jones Lumber Company, shot himself while confined in a Houston hospital.

Human Ants Burrow Through 18 Miles of Granite to Tap Colorado River

A billion gallons of water a day can be carried over the mountains and deserts to southern California when engineers complete the gigantic Colorado river aqueduct seen upper left. Upper right, "holing through" solid granite to complete the 18-mile east Coachella tube, one link in the mighty 241-mile water supply line. Two crews, working from opposite directions, met within inches as this picture was taken. Below, the route of the aqueduct from the Colorado to California. Arrow indicates position of the Coachella tunnel, just driven through the Little San Bernardino mountains.

THE turbulent waters of the Colorado river surge steadily closer to Southern California.

Battling desert heat and mountain heights, 4000 workers, building the greatest aqueduct in the history of man, recently "holed through" another link of the 241-mile supply system that will carry water from the mighty Colorado to the homes of Los Angeles and 12 other coast municipalities.

For three years grimy, sweating hard rock crews had driven their way through granite mountains to a central point. Then a 500-pound dynamite blast 2000 feet underground ripped through the remaining inches and two great tunnels—each nine miles long—were joined to form the East Coachella tube.

The work was a signal achievement in engineering. The task was that of providing a tunnel pass through the San Bernardino mountains so that huge concrete water conduits can be laid to carry 1,000,000,000 gallons a day.

When they are laid, gigantic pumps at the Parker dam intake site in Arizona will raise the water to the tunnel level for its long trip.

AS workers "holed through" on this latest link, costs of the great project reached \$60,000,000, or more than one-fourth of the total estimated cost of \$220,000,000.

But costs are only incidental to F. E. Weymouth, general manager and chief engineer of this project. Southern California must be assured an adequate water supply. Its residents decided that five years ago by a vote of 15 to 1. Hence, these figures for the project:

An average outlay of \$5,000,000 a month for construction.

An estimated 5,670,000 barrels of cement for the entire project.

An estimated 3,600,000 gallons of gasoline consumption before the job is finished.

Ninety million board feet of lumber, 41,000,000 pounds of ex-

plosives, and 2500 miles of copper cable contemplated.

Construction pipe, 600 miles; steel, 80,000 tons.

Food supplies, 74,500 tons.

BUT before building the aqueduct proper, engineers were faced with construction of roads, power lines, camps, water lines and communication systems.

In 300 days, 446 miles of high voltage power transmission line were erected and 150 miles of modern surfaced highways and feeder roads finished across desert and over rugged mountains.

With completion of these preliminaries, the actual tunnel building has progressed at the rate of almost three miles a month. Completion of the East Coachella link moved the Colorado river 18 miles closer to the coast. Almost 120 miles of tunneling has now been completed.

By 1939 or 1940, the builders of this aqueduct believe the Colorado will finally reach Los Angeles.

Frank R. Phillips to Conduct School at Fat Stock Show

Frank R. Phillips, head of the agriculture department of W. T. has been named superintendent of a special educational program for stockmen and farmers attending the Amarillo Fat Stock Show next month in Amarillo.

WOODSON ARMES

A special meeting will start Sunday at the Baptist Church with Woodson Armes of Baylor University in charge. Mr. Armes is serving his second term as State B. S. U. president. This is his second year in College. His home is at Slaton, and he is known to many Canyon people.

Highland News

Mrs. Fuqua and Mrs. Elam attended the Valentine party given by the primary room at the Bushland school last Friday.

O. J. Brown is still trying to bale feed on pretty days. At the rate the bales have been turning out it looks like the work will last the rest of the winter and spring.

Mr. and Mrs. R. H. Sharp and family, and Mr. and Mrs. Paul Morgan and son of Adrian had dinner at the Fuqua home Sunday.

Word has been received that Mrs. Kellogg has her little girl who is ill with pneumonia at St. Anthony's hospital. It is reported that M. K. Moore may be moved home this week. We hope that there will not be any more cases of pneumonia. Six or eight cases of mumps were reported in the Bushland school last week.

The community was invited in to a Valentine party at the Tom Boling home last Saturday night. "42" was played, and a merry time had by all, with delicious refreshments served to about 25 guests. The Home Demonstration Club

meeting was postponed from this Tuesday to next Thursday, Feb. 27. It will be an all day meeting at the home of Mrs. Mitchell, and Miss Dozier will be present.

Misses Mary Watson and Beatrice Fulton had supper at the Mason home last Thursday.

GOING TO MARKET

What do you want when you go to market?

You want quality foods—but you don't want to pay an excessive price.

You want low-priced foods—but you don't want to sacrifice quality.

The greatest problem of up-to-date food distributors is to combine the twin virtues of high quality and low price.

It is doubtful if the public realizes how much thought, time and energy have been expended to save them money—or how much has been achieved in their interest.

As an aftermath of the World War, there was widespread public demand to reduce waste and excessive charges between the producer and consumer. With food prices again rising, this question once more becomes a paramount issue.

For fifteen years wide-awake merchandisers have struggled with the problem of cutting the spread between the price paid to the farmer and manufacturer, and the price charged the consumer. Remarkable success has been attained. Today that spread is smaller than it ever was, and it is steadily shrinking. Food store advertising in local newspapers has been a tremendous force in securing mass distribution and resulting lower costs to consumers. The farmer is not penalized. But wasteful overhead and unnecessary middleman activities are constantly lessened.

"BETTER OFF DEAD"

The nation is beginning to realize the horror of automobile deaths that reached a total of 35,000 last year. Not so well realized, but perhaps even more horrible, is the situation of those who were involved in automobile crashes, were not killed—but would be better off if they had been.

Their ghastly plight has been described in a new booklet by J. C. Furnas, author of the famed "—And Sudden Death," entitled "Better Off Dead." Here is an excerpt.

"They weren't doing more than 45 around a slight curve. But centrifugal pull had dragged them a couple of feet the wrong side of the white line. . . . one of those semi-head-on, angling crashes. . . . Two passengers, bleeding, unconscious, were loaded into the ambulance. They were on the point of driving away when the policeman discovered the third."

"He was doubled up like a broken stick and thrust halfway through the narrow back window of the wreck, his head between his knees. They didn't dare try to unbend him till they reached the hospital. He was still alive and conscious. He had proved that by stealing the policeman's gun and trying to shoot himself."

"The spine was snapped clean, bent at an acute angle, and the bare end protruded from a rent in the skin like the stump of a horrible, bony tail."

"Thanks to the doctors that man is still alive. . . . He has been operated on 25 times. He is always in acute pain and paralyzed from the waist down."

Too horrible, too nauseating for print? Perhaps it is—but it's the truth. And it doesn't describe an isolated example. Thousands of people have emerged from automobile accidents to become helpless, pain-ridden cripples all their lives. They live on to remind us of the awful price we pay for speed, for recklessness, for incompetence at the wheel. Yet their agonies will not be entirely in vain if they teach the lessons that will save us from becoming members of that tragic legion who would be "Better Off Dead."

And the family pocketbook is the gainer.

A ten per cent saving in food prices alone, actually releases hundreds of millions of dollars of family income annually for the purchase of other necessities and luxuries, with resulting increased employment and business in all lines.

SCRIBES RATE EAGLES AS
POWERFUL CONDENSERS IN
DISTRICT TOURNEY FRIDAYTEAMS PLAY IN BADGER GYM;
AMARILLO FIRMS WILL
DONATE TROPHIES

The District Interscholastic League Basketball tournament will open tomorrow in Amarillo in the Badger gymnasium. The leading contenders for the district crown are Canyon, Friona, and Amarillo. Friona defeated Canyon twice this season by only small margins. The Eagles have never played the Sandies, but they beat the Presbyterians, who defeated the Sandies eight points.

Eleven teams will enter the tournament. Six teams are the only entries from their counties and are automatically county champions. They are: Amarillo, Canyon, Hereford, Friona, Dimmitt, and Stratford.

Trophies donated by various Amarillo business houses will be awarded the winning team and runner-up, individual high point scorer, and the outstanding guard. Gold basketballs will be given to an all-star team, selected by the coaches.

Eagles Win Two
Tilts; Eaglettes
Drop Two Games

The basketball games last week-end with Hereford and Goodnight resulted in two more victories for the Eagles, and two losses for the Eaglettes.

Friday night the local quintet defeated Hereford here in the Eagle gymnasium. Captain Taylor led the Eagle scoring attack with 11 points; Rusk followed with 10 and Clayton, forward for the visitors, hit the basket for nine of the Whitefaces' tallies. This was the last home game for the Eagles.

Journey to Goodnight
Saturday night the teams went to Goodnight where the boys won by a decisive score of 37 to 13. Rusk was high point man with 12 points of the Eagles' score. Bailey, Goodnight forward, was high-point scorer for the losers with 7 points. During the second quarter, the second team replaced the first team and played the remainder of the game.

The games last week-end completed the Eagles' schedule for this season. Feb. 21 and 22 they will go to the district tournament at Amarillo.

Lose to Hereford
Led by Arthur, brilliant forward, the Hereford sextet succeeded in defeating the Eaglettes for the second time of the season by the score of 21 to 8.

Turrentine was high point scorer with 11 points; Davis and McNeill tied for high point scorer for Canyon with 3 points.

The Hereford girls were leading at the half by a score of 8 to 1 and continued to hold it throughout the game.

Saturday night the Eaglettes were downed 21 to 19 by the Goodnight sextet.
The Eaglettes lead at the half 10 to 5 and until the last quarter were tied with the powerful Goodnight Buffaloes 13 to 13. In a previous game the Eaglettes won by a score of 30 to 26. Davis and O. Brown tied for high point honors with 14 points each.

Well! Dog Days
Are Here Again

Is Canyon High School a place where dogs are educated? It seems this is true, for from sunrise to sunset the school buildings seem to be the regular meeting place for all nationality of dogs.

Bruce Carruth's little black dog, Fritz, comes to school early in the morning and sits patiently waiting in front of the building for Mr. Carruth to arrive.

If anyone loses a dog there is no need to search all over town for it, just come to the school house and the the lost may be found.

FREIDA LOWRIE, '35, AND
W. H. SANDERS WED FEB. 14

Freida Lowrie, ex-student of '35, became the bride of Mr. W. R. Sanders, Feb. 14, at the home of the bride's parents, Mr. and Mrs. J. J. Lowrie, with the Rev. G. A. La Grone of the Amarillo Seven Day Adventist Church, officiating.

Mrs. Sanders was an active member of the Senior Class last year and took part in the Spanish Club, Press Club, and the Glee Club. She came here in her sophomore year. The groom has resided in Canyon for two years. Coming from Jumbo, Texas, where he had finished the tenth grade.

Miss Lois Goodrich, teacher, visited in Amarillo, White Deer and Pampa over the week-end.

Judge Gough of
Amarillo Speaks
Before Assembly

"The idea to be a cowboy and to ride the open range was born in me and has never been erased," said Judge L. Gough of Amarillo who spoke to the high school assembly yesterday at 3 p. m.

Mr. Gough, born in Lamar county, Texas, July 29, 1862, obtained his first job as a real cowboy in 1882 when he started work on the T-Ancor ranch in Grayson county.

On a trip to San Antonio Mr. Gough started writing rhymes for the amusement of the boys. These poems have an historical value as depicting actual life on the trail and ranch. In 1886 a thousand copies of these rhymes were published.

"Leather Lip" was the first poem composed. At the time these were written no thought was given to having them published, but George Mays said, "I wish you would have those rhymes published. I want a copy of them," thus the publication. Some of his poems are, "The Stamped," "A Lonely Trip," "Home Again," "The Past and Future," and "The Red Man."

Warm—
Or Kept Warm?

Are radiators to give warmth or to be kept warm?

Whatever they are for they are certainly kept warm. Every morning from 8:30 to 9 o'clock you'll notice Coach Jones in front of one radiator reading the morning paper, and Mrs. Foster in front of the other one either talking to some one or reading.

Now you answer the question for yourself.

Stroud's Serve
Press Members

Late last Monday evening Mr. and Mrs. W. H. Stroud called Miss Lois Goodrich to the telephone.

They asked the members of the Press Club to come to their store at 6:30. When they walked into the front door of the store an aroma of chili met the nostrils of the hungry press clubbers. Mr. Stroud said, "Line up," and they did. Not only did they serve chili, but pop, crackers, and pickles.

Sighs of "Yums, yums," were heard as the satisfied students filed out of the store and back to finish putting out The Eagle's Tale.

Judges Pick Cast
For One-Act Play,
"Last Flight Over"

The cast for "Last Flight Over," a serious one-act play by Allean Lemmon has been chosen. This is to be given at the Interscholastic League meet.

Miss Mary Morgan Brown, Mrs. Tommie Montfort, and Mr. Leon Lassers selected the cast Feb. 12 from the 16 students that tried out. Miss Edith Shields will direct the play.

Dave, a boy of 17 will be played by Fred Hart. Marjorie Wilkinson and Sarah Bonnie Bourn are trying for Mattie, his married sister. Hal Harrison will be Benny, his brother, age seven. The part of Pa, Dave's father, will be taken by either Sewel Cox or Joe Frank; Pay Plaster will portray Sairy, a neighbor woman. The girl who is not selected for the part of Mattie will be assistant director.
The play takes place in a small living room of a pioneer "soddy" on the Nebraska prairie. A boy who wants to go East for an education and the father who wants him to work at home make up the main plot.

He Has A Hobby
Wrapped In Velox

Panchromatic, velox paper, high pole, verichrome, no it isn't crazy; these are only some terms used by Fred Hart in his field of science.

Fred Hart, age 15, and the youngest member of the Senior Class, does not take up such small hobbies as collecting stamps and autographs, but he goes in for larger accomplishments — photography. He devotes his spare time trying the different colors of inks on negatives, and new ways of developing films.

"Photography work is going to be my project in chemistry," quotes the young Fred. Can you think of a better way to spend your spare moments that would be more profitable?

Meet The Eagles

Jack Taylor, a senior and '35 letterman, has the honor of leading the Eagle quintet as captain. Jack has personally accounted for 128 points for the current season and is an outstanding forward of the District. Jack is also president of his class, which office he has held for two years. This year he lettered in football and has played basketball since entering high school. Jack is managing editor of The Eagle's Tale. He had a star role in the one-act play last year.

Other Stars

Ray Ford Rusk, towering center, is playing his first year with the Eagles. Ray Ford's scoring for the season totals 121 points. He is a junior and will have another year in which to star for the purple and white.

Thomas Harris, stellar guard, is playing his last year of basketball with the Eagles. Thomas is also a letterman of '35, and has scored 63 points this season.

Wesley Cox, guard, and letterman of '35, is playing his last year with the Eagles. Although Wesley has only scored 19 points, he has kept down the opponents' score.

Darwin Dobbs, a junior and forward, is playing his first season with the Eagles and has found the basket for 136 points.

Eagle Substitutes
Leslie Lisle is a senior and guard. Leslie has scored 22 points for the Eagles.

C. L. Drummond, a junior and forward, will have another year to play with the purple and white. Eston Brietling, a freshman, has proved to be outstanding material as a forward. Eston has three years left and is expected to become a brilliant star.

D. A. Butler, also a freshman, is an outstanding defensive guard, and has three more years in high school.

John B. Pope III, a junior and forward is playing his first year with the Eagle quintet.

Melvin Calliham, center, is a junior and will be back for more next year.

Polly Little, sophomore, Edward Little, Jr., freshman, and Dawson and Joe Billy Little of the grade school checked out of school Friday to go to Panhandle where Mr. Ed Little, Sr., their father, will handle the Ford agency.

The Canyon Book Club was entertained last Wednesday when a play, "The Case of Mrs. Kantsay Know," was presented in the high school auditorium, directed by Mrs. A. M. Meyer. The cast was composed of members of the club and their children: Mrs. Ray Campbell, Mrs. Clyde McElroy, Mrs. Tom Knighton, Mrs. William Ash, Mrs. Charles Dickey, Mrs. Floyd Dunaway, Tom Knighton, Jr., Ben Carolyn Dunaway, and Jane Campbell. Following the play, a tea was given in the Home Economics dining room. Tea, smacks with cream, and Pilgrim cookies were served to about 100 members and their guests by the third year Home Economics girls who prepared and served the food.

J. C. Bellah, junior, came back to school Monday. He has been in his home since he returned from St. Anthony's hospital, where he underwent an operation for appendicitis, January 25.

Program, Game,
and Parties Fill
Hi-Y Club's Week

The Hi-Y Club of Canyon High School has just finished an active week of programs, entertainments, and service.

Amid shouts of laughter, the local Hi-Y Club was host to 30 Amarillo Senior Hi-Y and 10 W. T. Hi-Y boys last Monday night.

Dr. Meyer, professor of Education at W. T. S. T. C., gave a short, inspirational talk on "Hobbies."

Under the flood lights of the Grade School the local Hi-Y boys succeeded in ousting the Amarillo Hi-Y quintet by a score of 28 to 20 in an invitation game Monday night.

Clark and Sargie, of W. T. Hi-Y Club proved to be the most efficient players on the court.

The Canyonites were trailing at the half, 18 to 7. The third quarter told a different story as the locals jumped into the lead and kept their margin until the final whistle blew.

After the game, refreshments were served to 55 boys and supervisors.

Have Valentine Party

Thursday night at 7:30 o'clock lights from five automobiles came down the hill to the G. W. Cox Home. Mr. and Mrs. Cox weren't frightened. They weren't even surprised it. They knew it was only 12 Hi-Y members and their "Lady Friends" and other guests.

After enjoying three hours of Cupids pie, descriptions, follow the leader, nose race, amateur performers, and a picture show, refreshments of sandwiches, red hots, cookies, and hot punch were served to all the members and guests.

Give Rotary Program

The Hi-Y had charge of the father and son day program at Rotary, February 11.

A two-act play, featuring Father-Son spirit, was given by Ruby Guthrie, Sewel Cox, Joe Frank, Wayne Marsh, and Fred Hart, under the direction of Miss Edith Shields.

Are Students
Absentminded?

minded people? A student in Canyon High qualifies for the title "absentminded." This student bought a Valentine for his California "heart-beat." He went to the post office and got some mullage from the clerk to seal the envelope which he put into the box with neither stamps nor address. The clerk kindly consented to get the letter back for him. The student addressed the letter and put it back in the chute without a stamp. He was too disgusted to ask for the letter again but waited until it was put in his box according to the return address to get it and stamp it.

Shermon Higdon certainly is "stuck" on that girl of his in California.

Shields and Foster
Present Students

Mrs. Lee Foster, music teacher, and Miss Edith Shields, expression teacher, will present their pupils in a music and expression recital, Feb. 27, in the high school auditorium, at 8 o'clock.

Both the grade school students and high school will be featured in this program.

P. T. A. Study Club Meets Feb. 17th

Parent Teachers Association Study Club, Feb. 27, in the grade school music room from 3 o'clock until 4. An officer of the P. T. A. will discuss a phase of general P. T. A. work.

Pictures of Mexico will be shown in assembly next Wednesday. The Spanish Department has charge of the program.

Margaret Stewart invited the Home Economics club to have a picnic at her home Tuesday afternoon at 5:30 o'clock. Refreshments of marshmallows and cocoa, hamburgers, and nuts were served. The refreshments that needed to be cooked were prepared on a stove in one of the club houses on the Stewart place. More than 30 girls that attended the picnic came back saying, "I had a good time."

The Sophomore English Class under the supervision of Miss Mattie Jordan met in front of the Olympic theater last Monday night and attended the show "A Tale of Two Cities" in a body. The class recently finished the study of the story.

The 6A and 6B classes are building a landing field in which the members of the class will place airplanes to represent planes of different famous men: Lindbergh, Byrd, and others. The students are building these models.

COMMUNITIES' AMATEURS
PERFORM TUESDAY NIGHT
TO BENEFIT SENIOR CLASSEaglettes Engage
Lakeview Sextet
Tomorrow Night

The Canyon Eaglettes will play their last game on their home court tomorrow with Lakeview.

The Eaglettes have never met the Lakeview Sextet but they will be in tip-top condition to put up a hard fight.

The Eaglettes have lost only two games on their home court and do not intend to lose another one. The starting line-up will be Captain Brock, Overton, Collins, Davis, McNeill, and Slack.

I. B. Carruth Will
Attend National
Supts. Meeting

Mr. I. B. Carruth, superintendent of Canyon High School, will leave tomorrow for St. Louis where he will attend the meeting of the National Association for Superintendents, Feb. 22 to 28.

Mr. Carruth will go with Superintendents C. M. Rogers, Amarillo; W. H. Younger, Tulsa; W. B. Ervin, Perryton; R. B. Fisher, Pampa.

There will be speeches held through the week by Dr. Charles Judd, Chicago, Illinois; Glen Frank, Wisconsin; Charles A. Beard, New Milford, Connecticut; Herbert B. Bruner, Professor of Education Teachers College, Columbia University, New York, N. Y.; Frank N. Freeman, Professor of Educational Psychology, The University of Chicago, Chicago, Illinois; Howard E. Wilson, Assistant Professor of Education, Graduate School of Education, Harvard University, Cambridge, Massachusetts.

Mr. A. J. Stoddard, Superintendent of Schools in Providence, Rhode Island, is president of the division of Superintendents. He will be the principal speaker of the meet.

Mr. Carruth plans to return February 28.

The cold wave seems to drive the marble players into the gymnasium. Every noon hour the gym is filled with vigorous students. Some of the students shout at the indoor baseball players; other students fight, talk, or take interest in the indoor baseball game.

Boxing has been stopped until the hooping season is over.

Last Thursday night the Eaglettes had their first workout at night. Night practice seems unlikely, for the Eaglettes lost two games last week-end.

The Eagles are rated as second in the district by sports scribes of the Panhandle and the Amarillo Daily News; so everybody hopes that the Eagles are not underrated. Jack Taylor seems to be a popular name for Texas basketball captains; the captain of the University of Texas is named Jack Taylor. The University of Texas rates second in the Southwestern Conference and Canyon is rated second in the District. This is phenomenal.

The Ex-Eagles basketball team at the college is the only intramural team that has not been beaten. Ex-Eagles rank as the "Top," and the high school is certainly proud of its former basketball stars.

The students of C. H. S. are enthusiastic over the idea of intramural basketball. The intramural teams should be well-coached, because they will certainly have some good basketballers for coaches.

GRADE STUDENTS ENJOY
VALENTINE CELEBRATIONS

All of the grade students enjoyed Valentine celebrations last week.

The 3A and 3B classes had a Valentine party Friday in Miss Ruth Greenfield's room, and 5B had its own party the same day.

The 7A and 7B classes had a Valentine program Friday. Martha Frances Campbell told the group a story which was followed by a song by Shirley Ann Newberry, "On the Good Ship Lollypop."

The 6A entertained 6B with a Valentine party. They were entertained by songs, stories, and tap dancing done by members of the group and were served refreshments.

The 4A and 4B, 2A and 2B classes sent their Valentines thru a post office which was built by members of the class. They put

ADULTS AND CHILDREN WILL
COMPETE SEPARATELY
FOR \$3 AWARDS

Mama's "song boys," High Soprano and Low Bass, will engage Old Man Acrobat's "kids," Magician and Light-foot Dancer, when the communities' star amateurs, featuring knocking knees and stammering voice, strive to gain the audiences' hand-blistering applause in the high school auditorium, February 25.

So "Papa" will not be compelled to compete with "Baby," the contest has been arranged in two divisions: one for children, 16 years and below, and one for adults above 16.

The Senior Class, sponsor of Amateur Night, has been working on the project since early November, and it has secured many of the communities' star amateurs to compete for the \$3, \$2, and \$1 prizes offered in each division.

Any amateur who has not won in any other contest in Canyon is eligible to enter. All those wishing to participate may do so by giving their names to Sarah Bonnie Bourn, senior secretary, before 4 o'clock, February 25. Amateurs may contact Sarah Bonnie by phoning the high school, No. 23.

The performance will start at 7:30 o'clock with Jack Taylor as Master of Ceremonies. Admission will be 10 and 15 cents. The proceeds will be used to buy the annual senior gift for the school. Don't miss this evening of entertainment.

Pope Summarizes
War Experience

Mr. John B. Pope, principal of the high school, talked to the American History class last Friday afternoon on his personal experiences in the World War. Mr. Pope was an observer and photographer during the time he was overseas. He showed the class some pictures he had taken from his ship and explained how the pictures were interpreted to gain knowledge of the country photographed. The pictures were snapped from three miles up and very little was discernible.

Mr. Pope gave a detailed account of the first "dog fight" in which he participated. In this scrimmage he shot down an enemy plane and came out without a scratch. There were 17 bullet holes in the plane around the seat in which he sat.

P. T. A. Presents
Radio Program

The Parent-Teachers Association of Canyon, featuring the Mother Singers, High School Choral Club, Superintendent I. B. Carruth, and Mrs. Alfred Bellah, president, presented a radio program over KGNC last Thursday afternoon.

The P. T. A. gave a thirty minute program. Mrs. Alfred Bellah gave the opening remarks and had charge of the program. A short play "Reminiscence" was presented by Mrs. W. T. Davis, Mrs. I. B. Carruth, Mrs. Joe Black, and Mrs. R. E. Ball, as characters.

Superintendent I. B. Carruth gave a short talk on "Safety" in the home, school, and community. The Mother Singers sang three numbers, "The Cradle Song" by Mozart, "Elegy of the Sea," by Tchaikowsky, "The Fairies Dancing on the Lawn," an old English folk tune. The High School Choral Club sang two numbers, "The World is Waiting for the Sunrise," and "Marcheta."

Matmen Defeat N. M. M. I. Cadets By 25-13 Score

In a dual meet at Roswell, N. M., Saturday, the matmen of Coach Herschel Jennings opened the 1936 wrestling and boxing campaign with an impressive victory of 25-13 over the Cadets of the New Mexico Military Institute of Roswell.

Owing to a scarcity of material, Coach Jennings was forced to default three boxing matches and one wrestling bout to the Cadets—a total handicap of eight points. But in the light of this inequality, the Buffs displayed their superiority by limiting the cadets to a scant five points.

The feature of the boxing division was Stina Cain's knockout victory over the highly touted Cadet Malcolm in one minute and 10 seconds. Wygoner also vanquished Brugger in less than a minute via the knockout route.

In the wrestling division, the Buff matmen dropped but two matches—one by default; the other by decision. Horton and Caviness won over their men by falls, securing five points each; while Calloway, Murry, Jennings, and Jackson won by decision to contribute three points each.

The results of the match follow: 115 lbs. W. Cain won by decision over Cadet Roberts.

125 lbs. Default to N. M. M. I. 135 lbs. Purcell lost to Cadet Dunningham by decision.

145 lbs. Ray Cox lost to Cadet Hancey by decision.

155 lbs. Default to N. M. M. I. 165 lbs. S. Cain won by knockout over Cadet Malcolm.

175 lbs. Default to N. M. M. I. Heavy, Waggoner won by knockout over Cadet Bruggeman.

Wrestling
115 lbs. Default to N. M. M. I. 125 lbs. Calloway won over Cadet Hatcher by decision, 2 min. 46 seconds.

135 lbs. Gordon lost to Cadet Murray by decision, 3 min. 8 sec.

145 lbs. Murry won over Cadet Jenkins by decision, 4 min. 27 sec.

155 lbs. Jennings won over Cadet Alexander by decision, 4 min. 13 seconds.

165 lbs. Horton won over Cadet Hayes by fall, 4 min. 55 sec.

175 lbs. Caviness won over Cadet Hennessy by fall, 5 min. 3 sec.

Heavy, Jackson won over Cadet Honecheck by decision, 5 min. 32 seconds.

Yearlings Defeat AJC Badgers For Seventh Victory

Elating over their win from the Badgers of Amarillo Junior College, the undefeated Yearlings of Coach Bob Cox travel to Plainview today to tangle with the Wayland Jack-rabbits.

The game with Wayland last week was postponed because of some confusion that was created when Coach Barksdale was appointed to succeed Carl York as mentor of the W. T. H. S. Calves.

Owing to their opening victory over the Jackrabbits, the Freshmen are slated to take the encounter, but the Baptist crackshooters gave evidence that they are fully capable of reversing the tables.

Soil Election

(Continued from first page)
 servation District," and each voter who opposes the creation of such District shall have written or printed on his ballot "Against the creation and incorporation of _____ County Wind Erosion Conservation District."

Sec. 3. When the returns of the election mentioned in Section 2 have been canvassed by the Commissioners Court, the result of such election shall be declared by order entered on the Minutes of said Court, and, if the result is in favor of the creation and incorporation of the District, the County Judge shall issue an order declaring such District to be created and incorporated and such order shall also be entered in the Minutes of the Commissioners Court and a certified copy thereof entered in the Deed Records of the county. Thereupon, the District shall be deemed legally created and incorporated with all the rights, powers, authority and privileges herein conferred and authorized by Section 59, of Article XVI, of the Constitution for the purpose of conserving and reclaiming the soil in such District.

Sec. 4. When a Wind Erosion Conservation District is created, the County Commissioners and the County Judge will thereupon become the Governing Body of such District. The County Judge shall be chairman of the Board, with authority to vote in case of a tie and charged with the usual and customary duties as presiding officer. The County Treasurer will be the Treasurer of the District and the County Clerk shall become the Clerk of the Governing Body. The Treasurer shall have the care and custody of all funds, obligations and securities of the District and shall disburse and dispose of same in compliance with the orders of the Governing Body. The Treasurer shall execute and deliver to the County Judge a good and sufficient bond in the penal sum of not less than Five Thousand Dollars (\$5,000) nor more than Ten Thousand Dollars (\$10,000), conditioned for the faithful

discharge of his duties and the disposition of all funds and obligations of said District as required by law. The bond shall be signed by a solvent Surety Company authorized to do business in this State, and the premium thereon shall be paid by the District. The Clerk shall keep an accurate record of all orders, minutes and resolutions of the Governing Body and shall countersign all vouchers and documents and perform such other acts as may be directed by the Governing Body. The duties herein imposed upon the County Judge and Commissioners, the County Clerk and Treasurer shall be ex-officio duties. By vote of the Governing Body may allow the County Clerk and County Treasurer a monthly compensation of not more than Twenty-five Dollars (\$25), which shall be paid by the District.

Sec. 5. The function of a Wind Erosion Conservation District is to conserve the soil by the prevention of unnecessary erosion caused by winds, and the reclamation of lands that have been depreciated or denuded of soil by reason of winds. Without limitation of the foregoing, such a District shall have and is hereby authorized to exercise the following rights, powers, privileges and authority, viz:

(a) To prevent or aid in the prevention of damage to lands and the public roads and highways due to the unnecessary movement of sand, dust and soil originating from lands within or without such District.

(b) To construct improvements and maintain any and all facilities to arrest or prevent the erosion of soils or lands within such District by reason of winds.

(c) To have the right to enter upon any lands in the District for the purpose of treating same to prevent the spread of soil erosion and damage to other lands in such district.

(d) To borrow money for the corporate purposes of such District and to pledge any certificates, obligations, or securities held by such district as security therefor, and to pledge and assign any and all revenue or income to secure

the repayment thereof. In this connection, any such District may issue its obligations, warrants, bonds and debentures or other evidences of indebtedness, with interest not to exceed five (5) per cent per annum, maturing within ten (10) years and payable out of and secured by the revenues and incomes of such District, with the reservation or provision that no such obligation shall be paid out of ad valorem taxes.

(e) To accept grants and to borrow money from the United States of America or from any corporation or agency created or designed by the United States of America to loan and or grant money, and in connection with such grants and or loans to enter into such agreements as may be required for such purpose.

(f) To sue or be sued in its corporate capacity.

(g) To adopt a corporate seal.

(h) To adopt by-laws and rules and regulations incident to or necessary to the dispatch of business or the discharge of corporate functions.

Sec. 6. The Governing Body of each Wind Erosion Conservation District shall consult and advise with the Director of Texas Experiment Station of A. and M. College, the County Agent, the Department of Agriculture of this State, and the Soil Erosion Service of the United States of America, and may generally conform to and cooperate in any regional plan determined upon in connection with the application and operation of this Act. Such Districts shall be agencies of the State of Texas charged with the responsibility of conserving the natural resources in soil.

Sec. 7. The Governing Body of such Wind Erosion Conservation Districts shall have authority to accept gifts, grants, donations, advances and service from the United States or any other governmental agency, or agencies, in furtherance of the purposes for which such Wind Erosion Conservation District shall have been created, and shall administer and disburse such funds and all other money

and property coming into its hands in the exercise of its sound discretion and in accordance with law. In the expenditure of funds, said Governing Body shall adhere to and be governed by the laws applicable to Commissioners Courts. All accounts shall be audited annually and a copy of such audit filed with the County Clerk for public inspection.

Sec. 8. When a program of work shall be determined upon and an assessment against property is contemplated, the Governing Body shall make up an estimate of the cost of such work and tentatively allocate a portion of such cost to the land and the owners thereof that will derive benefit from such work. The Governing Body shall enter an order on its minutes fixing the date for a hearing to determine whether or not assessments shall be made, and no assessment shall be made until a full and fair hearing shall first have been given the owners of such property, and in no event shall an assessment be made against any person or property in excess of the actual benefit to such owner in the protection given his property. Notice of the intention to make such assessment shall be given to the owners of all property against which a lien or assessment is contemplated, and such notice may be served in person upon the owner or the same may be published for two (2) weeks in some newspaper of general circulation published in the county, the first publication to be not less than ten (10) days prior to said hearing. The names of the owners, lienholders or interested parties need not be specifically set forth in such notice, but the parcel or parcels of land against which such assessments shall be made shall be briefly described in said notice by survey and block numbers or any other description reasonably identifying the same, but the amount of the proposed assessment shall be stated. Said notice shall command all parties to appear at a hearing to be held at the courthouse in said county and contest any proposed assessment against any particular piece of property.

Sec. 9. No assessment shall be made against any property used, claimed or occupied as a homestead, but the Governing Body is authorized to take liens securing such assessments in the manner now provided by law for fixing liens upon homesteads to secure the costs of improvements thereon.

Sec. 10. In the event any certificate issued by the Governing Body or any such District is not paid at the maturity thereof, suit may be instituted thereon in any Court of competent jurisdiction and the lien securing same foreclosed, and the property sold in the same manner and under the same procedure as provided for the foreclosure of other liens on real estate.

Sec. 11. Due to the fact that the highways in many counties are rendered useless by reason of the accumulation of sand, soil and dust from adjoining lands, the Commissioners Court of any county, the area of which comprises a Soil Erosion Conservation District, may, in the discretion, transfer to such District as much as twenty (20) percent of the automobile registration fees accruing to such county, and the Governing Body of the District may then expend the funds so transferred in defraying the cost of soil erosion work. In like manner the Commissioners Court is hereby authorized to transfer to such District all or any part of any Road and Bridge Special Taxes that may be authorized by vote of the people of such county.

Sec. 12. Wind Erosion Conservation Districts created under and by virtue of this Act shall have no power to levy ad valorem taxes or create obligation payable out of funds raised by taxation, save and except to the extent herein specifically provided.

Sec. 13. The fact that unprecedented damage has resulted to the soil of the counties hereinafter named by reason of soil erosion caused by wind, which has been so serious as to drive people from their homes and to render vast areas of valuable land untenable; and the further fact that vast clouds of dust have been carried by winds for hundreds of miles and have caused practically every section of the State to suffer therefrom, and the further fact that such condition has seriously jeopardized the health of a great many people has resulted in a public calamity to the counties hereinafter named; therefore, to aid and facilitate the work to be performed by wind erosion conservation districts, the State ad valorem taxes that will accrue and be due and payable to the State of Texas for the years 1935 and 1936 from all property located in Dallam, Hartley, Oldham, Deaf Smith, Sherman, and Moore Counties, and fifty per cent (50%) of the ad valorem taxes that will accrue and be due and payable to the State of Texas for the years 1935 and 1936 from all property located in Lipscomb, Hansford and Ochiltree Counties, are hereby diverted to the conservation districts that may be hereafter formed in said counties. And the Governing Bodies of such conservation districts are authorized to use said sums to defray the necessary costs and expenses incident to the purpose for which such conservation districts are formed. As and when taxes from said counties are collected and paid into the State Treasury, the State Treasurer shall transfer and pay over the same to the Governing Body of the conservation districts formed in said counties and shall require such receipt as he may specify to evidence the receipt of said funds, provided that in the event either of said counties fails or refuses to form such conservation districts on or before October 1, 1935, then in that event the State Treasurer shall retain the State ad valorem taxes collected from said county as is required by general law. It is distinctly specified that the foregoing provision shall not in any case apply to the ad valorem taxes collected for school purposes or collected for the payment of Confederate pensions.

and at such hearing the Governing Body shall finally determine the amount, if any, of all assessments. If at such hearing it shall be determined that any particular piece of land will derive a benefit equal to or in excess of the amount of the assessment, then in that event the assessment shall be levied by order of the Governing Body. The assessment may be divided into three (3) equal annual installments which shall bear interest at the rate of five (5) per cent and shall be evidenced by certificates issued by the Governing Body, signed by the County Judge as Chairman, and attested by the Clerk under corporate seal. When so executed and levied, such certificate shall constitute a valid and binding first lien upon the property against which the same is made, and shall be recorded in the deed records of the county and, when so recorded, shall constitute notice to all subsequent purchasers.
